Tahoe Yacht Club Regatta Is Slated For This Weekend

TAHOMA — A large crowd of boating enthusiasts will gather at Chambers Lodge, Lake Tahoe, on Sunday, August 20, for the Tahoe Yacht Club's annual regatta.

The regatta, held every summer since 1925, except for the war years, is devoted to amateur racing of pleasure run-abouts. This colorful event has been supported over the years by many prominent northern Californians and is a highlight of the Tahoe summer season.

Stanley W. Good, Jr., commodore of the Tahoe Yacht Club, has announced that main inboard speed boat events will begin at 9:30 a. m. The inboard competition will include a series of races continuing until early afternoon. This will be followed by a sailing event, the first time sail boats have been included in the regatta competition.

Most events in the regatta schedule are open only to members. However, this year's competition features two races for special craft which are also open to non-members.

Winners of each event are awarded trophies during the day's final ceremonies. A. T. Smith, regatta chairman, pointed out that over the years perpetual trophies have been established by some of the older families in the Tahoe area.

"The R. Stanley Dollar, Jr. trophy, for example, is presented to the winner of the Class B hydroplane race of the junior outboard regatta," Smith said. "The E. L. Oliver Memorial Trophy was presented to the club in 1956 by the Oliver family in memory of the first commodore of the club,

Wallace estimated that some 30 sail boats will be eligible to participate in the event.

The figures are a necessary foundation for County Auditor John Trauner's establishment of the tax rate for the coming year, expected to be approximately 15 cents per $100 of assessed valuation above the figure for the previous fiscal year.

Prettyman swerved to miss the dog and the car ran between two trees and into the lake. The vehicle strangely floated, half submerged, and the two boys were quickly pushed out the windows. Rescuers hurried into the water and pulled Mr. and Mrs. Prettyman to safety just as the car sank.

The car which was towed out of the lake by Thornton's tow truck was not seriously damaged. The California Highway Patrol investigated.

Two Valencia women were critically injured Monday night at 5:20 o'clock at Tahoe City when they were struck by a car driven by Ruben Preciado, 41, a Kings Beach cook.

DONNER DOINGS

By VIRGINIA O'BEAR

I think Donner Lake must be one of the most photographed lakes in the country as so many people stop near our place and get out of their cars to take pictures. Sunday, I noticed several different groups of people stop and take movies of the boats and waterskiiers. There was a water ski race and contest at Donner Lake Lodge Sunday and I noticed Norm Saylor out on the lake doing some mighty fancy tricks on his skiis. Norm won first place in a ski contest at Lake Tahoe last week. Another young man did a fancy flight through space Sunday and he wasn't competing against anyone, not even the orbiting fellows in Russia! It was our 15 year old Chuck who all of you see around Z Market. He wanted to go for a fast ride behind our powerful PowerCat and you should have seen him when he asked to go out on a whip! He went sailing through space about three feet above water for about 20 feet, minus skiis and when he finally landed I was afraid to look. It kind of took the wind out of his sails but thank goodness nothing else. Life at Donner Lake can be very exciting in more ways than one.

The Ladies Auxiliary will meet at Donner Lake Lodge this Thursday evening and dinner will start promptly at 8 o'clock. Hostesses for the month will be Janet Franklin and Bobby Jang. Donna Warnke will assist with the telephoning and is hoping to be able to attend the meeting. A board meeting will be held between 7:30 and 8 o'clock since one was not held Monday evening because too many officers were out of town and had other obligations. It will be a delicious family style dinner and everyone is invited to come and bring a friend.

Mr. and Mrs. Ray Thompson and children, Al, Barbara and Norma are visiting Mr. and Mrs. Rex Reid this week. The children are grandchildren of Mrs. Lela Lamb and are having a wonderful time at Donner Lake. Bess said she expects her daughter and grandson soon from Los Angeles.

* * *

Mr. and Mrs. Art Johnson and children, Yvonne and Jimmy were here for a few days this week working on their property. They have a beautiful rock retaining wall which really improves their home.

* * *

Mrs. Earl Lewis spent the weekend at Donner Lake with her husband who is on the Briggs, Conley and Dennis construction job here. She loves to come up here to visit and go fishing and a lot of the construction workers like Donner Lake so well they are thinking about buying property. I haven't been up where the new highway is being made yet but I understand it is a breathtaking view and when I go I will most certainly take my camera and lots of film.

* * *

The Melvin Pinkhams will be at Donner Lake this week and when they go back to Eureka, they will take David Pankoke with them for a vacation. Diane Pankoke is busy this week, too. She is dancing at the Redwood Pavilion at the Washoe Medical Center in the elderly people's section. Diane is a versatile young lady and dances for benefits all over the country. Diane is going places as she has the personality and ambition to do so.

* * *

Mr. and Mrs. Chuck Waite were here over the weekend to visit daughter Sharon who is staying with us until school starts in Santa Rosa. Chuck is a juvenile officer in Santa Rosa and says he has his hands full down there. He likes young people and is trying to help them keep out of trouble.

Many Donner families will be sorry to hear of the death of Mrs. Grace Heitz, especially her neighbors around Cottage Pines Motel. Her son Bud along with George Brack are former owners of the motel, selling it to the Earlys. She was also the mother of Mrs. Charles Garayalde, builders of the La Marina Lodge at Donner Lake. Aunt Grace also built a little home at Donner Lake and sold it to the Oertwitz family because she couldn't live in the high altitude, so she went back to her home in Healdsburg about a year ago. Naturally we will miss her as well as our children as she was Charlie's aunt and a wonderful little lady.

* * *

Mrs. Vern Bonano, sister-in-law of Tom Bonano is here for a week having a wonderful time. She and Jerie went up on the new freeway and took pictures of beautiful Donner Lake.

* * *

I think a lot of us will remember what happened on Donner Ridge a year ago the 20th of August. The burned trees will remind all of us to be careful with fire!

One of Disneyland's spectacular attractions is the Circarama tour of "America the Beautiful." For you're encircled by 11 screens as the unique movie takes you to Times Square, a New England village, the Grand Canyon and many other parts of our land. The effect is breathtaking.

Circarama was developed by Walt Disney Productions and is part of an exhibit sponsored by Pacific Telephone and the Bell Telephone System.

It's free . . . if you visit Disneyland, be sure you see it.

* * * * *

Keeping your telephone ready to operate around the clock is one of our most important jobs.

To do this, a constant supply of electricity is needed. Big batteries like these supply the electricity. We keep them charged with generators which operate on commercial power.

If disaster strikes at outside power sources, the batteries can provide electricity to keep your phone operating for several hours. In addition, we have standby generators that can provide service indefinitely, if necessary.

Planning ahead so your phone calls will go through—is another way telephone people work to serve you better.

DIVOT-DIGGERS

By BETTY KIELHOFER

Thought we'd create a newsy little article on golf and country club activities. If you like it, how about dropping by my office downtown with bits of news about our course, friends you've seen there, comical happenings, etc. With the aid of our good newspaper editor and articles such as this one, we are hoping to promote more interest in golf and keep you informed of all the fun going on up there . . . Don't forget to sign up and qualify for the club championship tournament by the 21st. Our pro, Orf DeLuca, will show you the proper sign-up sheet and tournament chairman Lauren Russell will be most happy to give you the unknown details . . . Guess the hay-ride to McKay Springs has been postponed indefinitely as the country club calendar is bulging with too many other activities right now . . . still think it was an excellent idea, though . . . the best quip I've heard to date about our narrow fairways was made by Mr. Lewis, an old time golfer well known in that circle at Lake Tahoe . . . his statement was: "first time I ever played a course on which, if you're in a foursome, you have to go down the fairways single file." How true! . . . not because there's a family relationship, but don't you think the fairways and greens look nice since Cliff has been keeping them? All too often the man behind the scenes goes unnoticed but many have made this comment to me and I believe he should be commended . . . heard Russ and Charlie were thinking of pulling sagebrush from some of the roughs . . . Do I hear a few faint voices volunteering to assist them? For those who haven't seen, cheers to the Public Utility for the installation of the cooling water fountains . . . See you next week and in the meantime, keep 'em straight!

COAST GUARD CHIEF RELATES TAHOE PLAN

TAHOE CITY—W. E. Blanford, chief of the coast guard operations at Lake Tahoe was guest speaker at a recent luncheon meeting of Tahoe City Rotary Club at Tahoe Inn. He explained all the regulations on boating in navigable waters as well as regulations of states and counties that border Lake Tahoe. The State of Nevada, the chief said, prohibits water skiing closer than 200 feet at bathing beaches while California sets the distance at 300 feet and counties bordering the lake set other requirements to suit conditions which the federal regulations do not include.

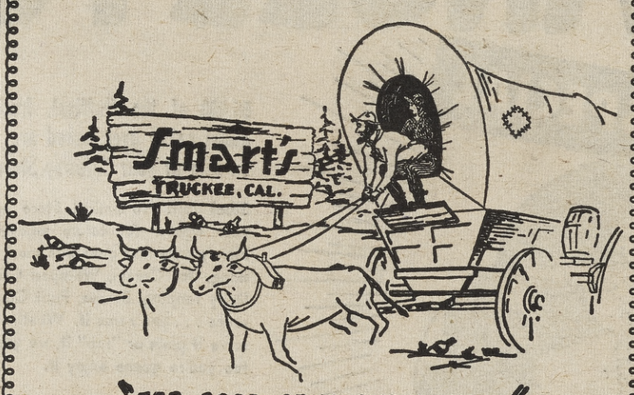

Of the 30 visiting Rotarians, many have summer homes at the lake and boats of various sizes and these visitors showed a great interest by the questions asked to cause the meeting to run over time.

Chief Blanford said he has two patrol boats, one small for the usual patrol and another for emergency work that will ride the roughest water that Lake Tahoe might have. He added that more boats are being built for next year when the personnel will be enlarged. He said a boat ramp and living quarters is being built at the former fish hatchery grounds two miles southeast of Tahoe City to accommodate additional men.

Ned Long was program chairman.

The meeting on August 8 was attended by 30 visitors, five guests and 24 local Rotarians. Gordon Moyer presided.

About 700 detectable earthquakes occur in the United States annually.

LAKE ROTARY CLUB DONATES MONUMENT

CRYSTAL BAY — Representatives of Nevada state highway department, park department, bureau of public roads and members of the North Lake Tahoe Rotary Club gathered Sunday, August 13 to lay the cornerstone and time capsule for an informational monument on the Mount Rose Highway overlooking Lake Tahoe. The monument, donated to the people of Nevada by the Rotary Club, is a public service project for last year's club president, D. C. Barkhurst of Brockway.

The time capsule contains many Rotary items and in addition will preserve current copies of newspapers with accounts of the ground breaking ceremonies. Pictures of participating officials, Rotary members and a complete list of those actively engaged in building the monument was also placed in the capsule as well as a complete roster of present North Lake Tahoe Rotary membership, according to Wiley Jones, project coordinator.

Spokesman for the Nevada highway department, Jack Parvin, stated before the assembly of Rotarians and Nevada State officials that his agency was grateful to the North Tahoe club for providing that this structure, architecturally designed to complement this most beautiful view of Lake Tahoe, was undoubtedly the finest of its kind anywhere.

The finished monument's curved rim contains seven bronze plaques each indicating different points of historical or scenic interest around the 75 mile shore line of Lake Tahoe. General statistics about the size, depth and geography of Lake Tahoe will be pointed out in these messages in addition to historical data regarding discovery, naming, etc.

After corner-stone laying and capsule placing ceremonies, all participants of this event adjourned to the meeting home of the North Lake Tahoe Rotary, the Crystal Bay Club for brunch and refreshments.

Road Work Starts To Alpine Meadow

TAHOE CITY — Preliminary work has started on an access road into the Alpine Meadows ski area and General Manager Peter Klaussen said the developers hope to have a $100,000 ski lodge, a mile long chair lift and two Poma lifts ready for operation by December 15.

The United States Forest Service has started construction of a $70,000 bridge across the Truckee River at the entrance to the Bear Creek basin. Klaussen said Alpine Meadows is contributing approximately $13,000 to make the structure a two lane bridge suitable for year around use.

The forest service will build approximately 2,000 feet of road to serve a proposed campground and Alpine Meadows will construct about three miles of road to reach the base of their ski lift operations at the base of Ward Peak.

Klaussen said the road work is scheduled to start within a week. Final design work is being completed on the lodge and other facilities and the start of construction has not been announced.

The main lodge will be located at an elevation of 6,920 feet. A double chair lift designed by the Riblet Tramway Company will be 5.600 feet long and will rise to an elevation of 8,500 feet. It will have a capacity of 900 skiers per hour.

LUNARDI'S LICENSE BILL SIGNED; GIVES NEW DRIVING LAW

Governor Edmund G. Brown has signed into law Assembly Bill 2229 by Assemblyman Paul J. Lunardi. The bill, which is a proposal to simplify the driver licensing picture for California's eight million motorists, won unanimous support in its passage through the state legislature.

Instead of authorizing the department of motor vehicles to issue either a chauffeur's or an operator's license with various endorsements and classifications to qualified applicants on passing the required tests, Assemblyman Lunardi's bill provides for the issuance of one license only, to be known as a "driver's license." This is defined in the bill as a "license to drive the type of motor vehicle or combination of vehicles for which a person is licensed under this (Vehicle) Code." The legislation is of national significance, since it is the only legislation of its kind in the United States.

The bill provides also that existing licenses shall continue in force until they expire.

WHAT 'IN STOCK' MEANS TO YOU

When your physician has prescribed medicine for you, it's important to you to have your prescription filled promptly. Yet, the pattern of Medicine and Pharmacy is ever-changing. Last year alone, more than 500 new drugs and new dosage forms were introduced by American pharmaceutical manufacturers.

No pharmacy in the world carries all known medications in stock at all times. But each time an important new therapeutic development is introduced, we make it a practice to include it in our inventory immediately, before we receive a prescription for it.

When you express confidence in us by bringing us your prescription, you can rest assured that every effort has been made to have the drugs you need "in stock" . . . to fill your prescriptions *promptly*.
